

Prescription Policy

We are pleased to offer our clients these options in filling their pet's prescriptions...

1. On site pharmacy: We continue to stock our preferred veterinary products and medications for your convenience. We offer competitive pricing on packages of monthly preventative products as well as many small animal long-term medications.

2. Our online store: We offer competitive pricing comparable to other online pharmacies, a trusted chain of supply, home delivery, and a wide selection of products including generics.

3. Written prescription: We will gladly provide a written prescription at the time of your pet's exam. Please exercise caution and only use legitimate, licensed pharmacies to protect from counterfeit or improperly obtained products that could be ineffective or harmful to your pet.

A \$10 service fee will apply to process a written prescription outside the day of the pet's appointment.

Effective 2.20.2012
